2013 GOVERNOR'S AWARD FOR QUALITY AND PRODUCTIVITY

PROGRAM DESCRIPTION

The Governor's Award for Quality and Productivity (GAQP) is a team award recognizing service excellence, efficiency, innovation, technology, process improvement, and employee development in Missouri State Government. Teams employed by the State of Missouri, who successfully completes a project with another section, division, department, agency or community organization, are eligible to submit a nomination.

Nominations must provide documentation which may include, but is not limited to, background information, procedures, and measurable impact of the project nominated. All winning projects must meet established requirements of effectiveness, responsiveness, and efficiency of such quality that would make the project a model of excellence in state government nationally.

THE GAQP THROUGH THE YEARS

The GAQP was originally established in 1988. At that time, nominations could be submitted for a project that was completed and received department/agency approval. The nominations were reviewed by a Selection Committee based on a set of criteria. Award winners were identified, and sometimes multiple winners were awarded in one criteria area.

Improvements continued to be made to the GAQP over the years. In 2001, the use of specific award categories was introduced. Although this change enhanced and strengthened the GAQP process, more than one team could still be selected as a winner in each category. In 2005, the Selection Committee revised the selection process to only select and award one team project per category. The most recent enhancement to the GAQP program was the implementation of the Pinnacle Award in 2010. The Pinnacle Award is not available for nomination. It is only used (recommended) by the Selection Committee if, in their opinion, the nomination clearly encompasses multiple award categories in a manner that exemplifies the spirit of the Governor's Award, or exceeds all other nominations.

The GAQP may recognize one winning team in the categories of: Customer Service, Efficiency/Process Improvement, Innovation, and Technology in Government, to serve as a model of efficiency, quality, and effectiveness for other work teams in Missouri State Government to follow.

This year — *the 25th anniversary of the GAQP program* — 25 nominations were received for consideration representing thirteen (13) state agencies and several community partners. Today we recognize and congratulate each winning team.
